

EXCEL ROLLING CULTIVATOR

need to fast-track your seed-bed preparation?...

- Construct and refine seed-beds prior to planting for enhanced seedling vigor
- Incorporate pre and post-emergence chemicals for fast knockdown and essential weed control
- Cultivate serious weeds while preserving seedling growth and crop root systems
- Aerate the soil, aiding water penetration and retention for young plants
- Help control soil and water losses from erosion, whilst managing residue retention

...the Excel Rolling Cultivator will deliver

- + **Proven** longevity in Australian conditions
- + **Create** an optimum planting bed and harvest the bottom line

“For easy seed-bed preparation and chemical incorporation, the Excel Rolling Cultivator forms an essential part of our cropping program”

Richard Seery, “Woodulla”, Talwood Queensland
